

HSE – Antimicrobial Resistance and Infection Control Programme

The latest RESIST newsletter (Edition 18) from the HSE Antimicrobial Resistance and Infection Control (AMRIC) team contains news and articles on infection prevention and control (IPC) and antimicrobial resistance. This issue includes information on the following topics:

- Update from the Chief Clinical Officer, Dr Colm Henry;
- Information on the HSE Climate Action Strategy and how the healthcare sector can contribute;
- Launch of the NCEC National Clinical Guidance No 30: Infection, Prevention and Control (IPC);
- Hand Hygiene Day updates;
- New AMRIC grant scheme 2023;
- RESIST rollout; and
- AMS resources for residential care facilities.
