

Medication Sick Day Leaflet

The IPU hosted a webinar last June 2022 in collaboration with the National Renal Office on the topic “Medication Sick Day Guidance Patient Information Leaflet (PIL)” and published an article in the IPU review July edition entitled **Supporting self-care for kidney patients** that included this resource. The recording of the webinar presented by National Renal Pharmacist Dawn Davin is available **here**.

If a patient has presented at your pharmacy with this leaflet and you would like to provide feedback on its use, please do so by completing a quick survey provided by the NRO (National Renal Office) available **here** or alternatively you can submit your feedback directly via email to **dawn.davin@hse.ie**
