

## Pharmacy In the Media

We issued a strong statement warning the Minister for Health of the consequences if he does not engage with us on negotiations around the dispensing fee. The item was covered on the top of the hour news on Newstalk and the Newstalk network with an interview by PCC Chair Kathy Maher. Feidhlim Hillery was also interviewed on the same topic on Clare FM. A copy of the press release is [here](#).

Kathy Maher was also interviewed on Newstalk and Today FM highlighting concerns around the shortage of Ozempic.

Barra Nevin was interviewed on Galway Bay FM and Midwest Radio on the call for the introduction of a pharmacy-based Minor Ailment Scheme.
